# All-in-One Conferencing & Collaboration

## More Engaging Meetings and Peer Communication

iMeet® delivers an engaging conferencing and collaboration solution for team meetings, customer presentations and one-to-one communication. The all-in-one web, video and audio conferencing solution leverages the stunning call quality of Dolby Voice® and HD video for a richer, more immersive conferencing experience that's just like meeting in person.

### Advance Your Collaboration and Accomplish More

Connect any way you need to - voice or chat, with or without video, one-on-one or with a group. iMeet provides a unified platform for high quality conferencing, content sharing and communication from any device, resulting in greater productivity.

### Increase Efficiency Across Your Organization

iMeet enhances virtual collaboration in Sales, Marketing, HR and other business units. View up to 15 webcams in a personalized meeting room and improve engagement with customers, partners, candidates and colleagues.
